

Market fear/greed: positive but not extreme

21-day rolling headline sentiment index, Jan 2020-Dec 2023. The market stays above the neutral line for most of the sample.

Market snapshot

Latest	56.5
Average	56.4
High	58.1
Low	54.4
Avg coverage	76.7%

Read-through

The market index is useful as context, but the fusion strategy relies on lagged sector signals rather than same-day market sentiment.

Note: 50 is neutral. Rolling score smooths headline noise and is not used with look-ahead in portfolio weights.
