

Combined funds: crypto allocation depends on portfolio rule

Monthly live asset-class weights for Combined universe funds, Jan 2021-Dec 2023.

Crypto allocation

Latest, average and peak

Method	Latest	Avg	Peak
Max Shp	17.3%	28.4%	76.2%
EW	16.7%	16.7%	16.7%
RP	8.6%	9.0%	11.8%
Min Var	0.0%	0.0%	0.0%

Read-through

Equal Weight mechanically keeps crypto higher. Minimum Variance almost removes crypto, while Risk Parity keeps it as a small satellite exposure.
